WOLFRAM FOR EDUCATION

Contact us

From elementary school to graduate school and beyond, Wolfram's products bring the world's best technology to education.

Millions of students use Wolfram technologies through Wolfram|Alpha every day, and all of the top 200 universities worldwide have Wolfram site licenses. For three decades, Wolfram's flagship Mathematica system has been a central tool for higher education across a variety of STEM disciplines. Over the years, Wolfram has added Wolfram|Alpha, Wolfram Programming Lab and other products, and continues to apply its technology to deliver uniquely powerful solutions for education—across fields and at all educational levels.

Research Universities

Bring Wolfram's powerful knowledge-based computing solutions to students and faculty across campus, conveniently delivering the best technology for education and research.

Colleges & Teaching Universities

Unify your computing solutions with Wolfram technologies—conveniently delivering multidisciplinary instruction with the best real-world tools.

Junior & Community Colleges

Engage your students with interactive demonstrations and self-paced computer labs—and use Wolfram tools to provide custom tutor-like solutions to students at all levels of proficiency.

High Schools

Give your students an advantage with the best technology, bringing STEM subjects to life—and now introducing broadly accessible programming education.

K–8 & Primary Schools

Explore math, science and coding with Wolfram technology—and get an early start on tomorrow's quantitative reasoning skills.

Postdoctoral Researchers

Advance your research and get proficient with the latest computational tools, for wherever your career may take you. Contact us for more details »

Continuing Education Students

Jump to the latest technology with Wolfram tools, enriching your learning experience and getting you ready for the future of computation.

Education System Integrators

Provide Wolfram technologies on desktops and clouds to a full range of educational organizations. Contact us for more details »

Educational Publishers

Use CDF and the Wolfram Cloud to deliver state-of-the-art interactivity and assessment in an exceptionally cost-effective way. Contact us for more details »

Education Technology Developers

Create a new generation of educational tools and analytics using the Wolfram Language and Wolfram Cloud. Contact us for more details »

Products & Services ⌄   Technologies ⌄   Solutions ⌄   Support & Learning ⌄   Company ⌄   🔍 Search

An Elementary Introduction to the Wolfram Language

Stephen Wolfram's introductory book about the Wolfram Language.

Wolfram Demonstrations Project

Thousands of open-code interactive demonstrations written in the Wolfram Language.

Products

Wolfram Mathematica

Wolfram's original flagship technical computation system, used across math and technical fields in most major colleges and universities around the world.

Wolfram|Alpha Pro

Instant access to the full capabilities of Wolfram|Alpha, with step-by-step solutions ideal for high-school and college students.

Wolfram Mobile Apps

"An app for every course"—with broad coverage for high school, college and many areas of graduate school.

Wolfram Programming Lab

A breakthrough in programming education: letting students at all levels create state-of-the-art code and turn ideas into reality.

Wolfram Discovery Platform

Wolfram's professional solution for research and development, available to educational institutions.

Wolfram SystemModeler

State-of-the-art multidomain systems engineering, ideal for engineering courses and research.

Wolfram Summer Programs »

Unique educational and career opportunities for students interested in exploring projects at the frontiers of science, technology and innovation.

Wolfram Internships »

Opportunities for students to participate in Wolfram projects.
